NTPD Officers Equipped with Body Worn Cameras

All Neptune Township Police Officers are equipped with Panasonic iPro 400 Body-Worn Cameras (BWCs) in accordance with the provisions outlined by the State of New Jersey and the Office of the Attorney General. All of our Officers and SLEO II's have been trained in the operation of the BWCs and will be utilizing them on calls for service, motor vehicle stops, investigations, and for any other incident within the officer's discretion.

The purpose of deploying BWCs is to provide accurate documentation of interactions between law enforcement and members of the public pursuant to NTPD, Monmouth County Prosecutor's Office, and New Jersey Attorney General's policies. The NTPD firmly believes that the BWCs will be an asset to both the public and to our officers as well as helping to increase transparency and foster trust within our community.

Below is an example of where an officer would be wearing a BWC.

Note: The BWC may be mounted on either side or the center of the chest, depending on the officer's assigned uniform.
